

Procedure: Procedure for Assuring Compliance with ACPE Accreditation Standards	Issued: 12/19/11	Revised:	Page 1 of 1
---	----------------------------	-----------------	--------------------

All standing program committees will be charged by the Dean with assessing the pharmacy program's compliance with ACPE Standards during August of each academic year. This review will be reflected in meeting minutes. If deficiencies are identified, a plan to address them will be generated and reported to the Pharmacy Program Assessment Committee. The Pharmacy Program Assessment Committee will then evaluate and consolidate all standing program committee reports into a single executive summary report and action plan. This report will be presented to the Dean by the end of August for a review of resources needed to implement the corrective action plan. The summary report on compliance with ACPE standards, and the action plan, will be presented to the pharmacy faculty during the fall program faculty meeting. A report on the outcomes of implemented action plans will be presented to the pharmacy faculty during the spring program faculty meeting.

Approved by the Administrative Committee on 9/20/11
